## Community Surveying

Pride in our Neighbourhoods

---

This interactive practical day course is aimed at your volunteer residents who give up their time to make a difference to their own local community and support the local authority in the tasks needed to create clean places within communities and local areas. Investing in your volunteers shows that you appreciate their own investment in their own community and give them the recognition they deserve.

### Course Aims

To provide delegates with knowledge and skills to understand standards of cleanliness and environmental issues within their local environment in order for them to carry out an inspection and grading survey within their neighbourhood

**PLEASE NOTE THAT THIS IS A PRACTICAL COURSE AND INVOLVES A WALKABOUT AFTER LUNCH IN THE LOCAL AREA FOR APPROXIMATELY 1 HOUR - SUITABLE CLOTHING AND FOOTWEAR SHOULD BE WORN**

### Course Objectives

By the end of the course candidates will:

1. Develop an overview of background to street cleansing and local environmental quality
2. Identify what the standards of cleanliness are
3. Identify other elements that affect the appearance of your neighbourhood

4. Be able to conduct a street cleanliness and local environmental quality survey - Practical session
5. Provide data to the authority based on your observations

**Who Would Benefit from Attending this Course?**

This course is suitable for volunteers, community groups and friends of groups who volunteer their time to improve the local area. Tenant Participation Officers, Neighbourhood Officers would benefit by attending with residents in order to ensure consistency in terms of grading and understanding and to support residents who may not have attended this type of session before

**Course Duration**

1 Day
