

PRACTICAL SURVEYING REFRESHER

Course Outline

This half day course is a practical variation of our full-day Monitoring Street Cleansing training course.

Course Aims

This course aims to update previous attendees of training who wish to update and validate the consistency and accuracy of their practical surveying.

Course Objectives

By the end of this training candidates will be able to:

- Be at the required standard to carry out LEQ monitoring
- Identify land uses
- Clearly understanding grading related to COPLAR

Who would benefit from attending this course?

This course is aimed at staff who carry out LEQ monitoring and have a good understanding of the methodology involved.

Course duration

Half day

What have others said?

“This course has provided me with a much greater knowledge of grading that will benefit me in my profession, it is a good all round course that has opened my eyes to grading. I would recommend this course to others as it provides an excellent insight into how easily bad grading can occur.”

Alan Taylor, Veolia

Did you know we can also deliver workshops on local environmental quality to elected members or board members?

This course can be run in-house, or the hosting can be shared between local authorities to keep costs down.
